

French-Israeli Review Course in Radiology
Daniel Hotel, Herzelia
23nd-25th of February 2009

Under the auspices of
Israeli Society of Radiology (ISRA)
Soci t  Franaise de Radiologie (SFR)
Fondation France-Israel
Israeli Ministry of Health
With the support of AFIMM

Presidents
Pr Moshe Graif
Pr Jean-Denis Laredo

Neuroradiology

Dr Marcello Daitzchman, Dr Jean-Manuel Faintuch,
Dr Claude Levy, Dr Julien Savatovsky,
Dr Reuven Schreiber, Dr Avi Schwartz

Chest & Heart Radiology

Pr Catherine Beigelman, Dr Naaman Bogot,
Dr Eli Konen, Dr Jean-Michel Serfaty, Dr Dorith Shaham

MSK Radiology

Pr Jean-Denis Laredo, Pr Martine Cohen-Solal,
Dr Laurence Bella che, Dr Iris Eshed
Dr Gideon Flusser, Dr Yossi Foldes, Dr Daniela Militianu

The conference is FREE OF CHARGE

Places are limited
Registration is required at
pnina@ofakim.co.il

Monday 23rd of February → NEURORADIOLOGY

Registration: 8:30/9:00

Lectures (9:00/13:30)

- Stroke MRI: J Savatovsky
- Supraaortic arteries: Sonography: JM Faintuch
- Supraaortic arteries: Angio-CT: J Savatovsky
- Supraaortic arteries: MRI : Cl Levy
- Multiple sclerosis: R Schreiber
- Brain tumors: M Daitzchman
- ER Neuroradiology: A Schwartz

Teaching Cases (14:15/16:15) :

- Brain tumors follow-up : J Savatovsky
- White matter diseases : J Savatovsky / Cl Levy
- Vascular diseases: J Savatovsky / Cl Levy
- Challenging cases : J Savatovsky

Tuesday 24th of February → CHEST & HEART RADIOLOGY

Lectures (8:30/13:15)

- Diagnostic approach of chronic diffuse infiltrative pneumopathies: C Beigelman
- Mediastinum (masses & other lesions) including pericardium: D Shaham
- Diagnosis of a solitary pulmonary nodule : C Beigelman
- Catheter complications: Naaman Bogot
- Chest trauma: Input of post-treatment in CT-scan: C Beigelman
- Pulmonary edema – Adult acute respiratory distress syndrome: C Beigelman
- Cardiac MRI : Main indications with emphasize on its role in differentiating ischemic and non-ischemic cardiomyopathies: Eli Konen
- ECG gated cardiac CT: Low dose acquisition protocols & main indications for cardiac, coronary & aortic root analysis: JM Serfaty

Teaching Cases (14:00/16:00) : C Beigelman / D Shaham / N Bogot / JM Serfaty

Wednesday 25th of February: MSK RADIOLOGY

Lectures (8:30/11:00)

- HAND : Rheumatologic diseases: JD Laredo
 - SHOULDER: Basis of MRI: G Flusser
 - TRAUMATIC KNEE: Basis of MRI: L Bella che
 - HIP: Coxopathies : Coxarthrosis / Synovial Ost ochondromatosis / Villonodular Synovitis: D Militianu
 - SPINE: Erosive discopathy: Spondylodiscitis / Spondylarthropathy / Discarthrosis: LB
- Symposium OSTEOPOROSIS (11:30/13:00)**
- What the rheumatologist needs to know from the radiologist? M Cohen-Solal
 - Treatment: What the radiologist should know about it: Y Foldes
 - Cementoplasty / Kyphoplasty: JD Laredo

Teaching Cases (14:00/16:00): L Bella che / I Eshed / D Militianu
