Lecture Series presentations will focus on current and future trends in the diagnosis, classification and treatment of vascular techniques, surgical approaches, and drug management protocols, which will lead to an optimal outcome for the patient.

Objective:

Complex Case Presentations

Speaker/Coordinator Topic Time

Roy Geronemus, M.D.

Milton Waner, M.D.

Linda Rozell-Shannon, PhD

Moshe Lapidoth, M.D.

Deborah Shatzkes, M.D.

Alex Berenstein, M.D.

Francine Blei, M.D.

Stuart Nelson, M.D.

Robert Rosen, M.D.

Alex Margulis, M.D.

Dan Ben Amitai, M.D.

Shoshana Greenberger, M.D.

Aaron Fay, M.D.

Leslie Graff

Rabin Medical Center

Chair, Department of Dermatology, Emilia Hodak M.D.

Syneron Candela

Vascular Birthmarks Foundation

Lecture Series Wednesday, February 18, 2015

ISRAEL 2015

Visit www.reg.co.il/vbf15 for Registration and confirmation details.

Lectures:

- Research Developments in Vascular Lesions
- Surgical and Drug Management of Hemangiomas
- Interventional Management of Extremity Malformations
- Advances in Laser Treatment
- Laser Treatments in Adults
- Open discussion among laser experts
- Open discussion among surgical experts
- Interventional AVM Challenges from Israel
- Management of Airway Vascular Malformations
- Medical Therapies and Research
- Research Remarks
- Q and A Session (all speakers)
- Summary Remarks
- Summary and Closing Remarks

Break

LUNCH BREAK

Complicated case for discussion

Before/After Complex Hemangioma Surgeries

Before/After PWS Children Laser and Propranolol

Before/After PWS Adults and Rapamycin

Complex AVMs Before/After Intervention

Complication case for discussion

International Panel: "Medical Therapies" by Robert Rosen, M.D. and "Interventional Case Presentations" by Alex Berenstein, M.D.

ISRAEL 2015: Vascular Anomalies Conference

Israeli Society for Vascular and Interventional Radiology

A New Era in Laser Treatments

Luminescence of Diode Lasers

Laser Treatment: The Delivery System of the Future

Luminescence of the Future: Dr. Stuart Nelson"

statements, and the conclusions of the researchers.

The ISRAEL 2015: Vascular Anomalies Conference is a landmark event for vascular anomalies researchers, clinicians, and stakeholders. It brings together experts from around the globe to share knowledge, discuss the latest research, and identify new opportunities for collaboration and innovation.

The conference features a comprehensive program that includes plenary sessions, symposia, workshops, and poster sessions. Attendees will have the opportunity to network with leading experts, exchange ideas, and learn about the latest developments in the field.

Join us in ISRAEL 2015: Vascular Anomalies Conference to be part of this exciting event and contribute to the advancement of vascular anomalies research and care.
