Dear colleagues,

We are pleased to forward to you the program for the forthcoming annual conference of the Israel Radiological Association to be held at the "Dan" Hotel, Eilat, Israel, October 28-30, 2009.

As in the past years we will host the members of the Israeli-French Association of Medical Imaging AFIIM and the SFR (AFI).

As in the past we included a pre-conference refresher course on Wednesday October 28, from 12:00-17:00. The refresher course is dedicated to a wide spectrum of topics and is entitled "From Head to Toe".

Our International Annual Guest Lecturers will be Philippe Grenier from France, Michael Federle, Joseph Schoepf and Eithan Halpern from the USA and Jean-Denis Laredo, Marc Zins and Jean-Daniel Piekarski from France.

Among the invited local speakers we would like to mention Moshe Gomori and Dorith Goldsher.

Our Guest of honor for this year is Dr. Hana Manor past chairman of the radiology department at Assaf Harofeh Medical Center.

All lectures, scientific communications and posters will be held in English for the convenience of the international forum of attendees.

As in the past conferences we shall dedicate the "Michal Meidan" award to the best presentation delivered by resident in Radiology.

A case solution quiz will be displayed for all participants and the winner will be awarded.

We continue our traditional collaboration with the Imaging industry Companies. These companies will display, as always, the most recent technological innovations and will be with us throughout all conference days.

Sincerely yours,

Prof. Moshe Graif
